Ilex vom westmark

A pedigree chart for Ilex vom westmark. The name is on the left, connected by a horizontal line to a vertical line. This vertical line splits into two diagonal lines that meet a horizontal line. From this horizontal line, two diagonal lines branch out to the right, each meeting another horizontal line. Each of these two horizontal lines then splits into two diagonal lines that meet a final horizontal line. This structure represents a total of four offspring from two parents.

Yutta vom wildflugel

A pedigree chart for Yutta vom wildflugel. The name is on the left, connected by a horizontal line to a vertical line. This vertical line splits into two diagonal lines that meet a horizontal line. From this horizontal line, two diagonal lines branch out to the right, each meeting another horizontal line. Each of these two horizontal lines then splits into two diagonal lines that meet a final horizontal line. This structure represents a total of four offspring from two parents.
