The pedigree chart for Runyans Running Jane is a three-generation chart. The first generation consists of two parents: Whisky Creek Hook (male) and Tizwin (female). Whisky Creek Hook is mated to an unnamed female, and Tizwin is mated to an unnamed male. The second generation shows the offspring of these matings. Whisky Creek Hook has two daughters, and Tizwin has two daughters. The third generation shows the offspring of these second-generation females. Whisky Creek Hook's daughters have two and four offspring respectively, while Tizwin's daughters have two and four offspring respectively.

TIZWIN
