

PEDIGREE

ALDERBROOK GUNNER

English Setter
Male

ALDERBROOK LA FUSE

The pedigree chart for Alderbrook Gunner is a three-generation tree. It starts with two parents on the left: Alderbrook La Fuse (male) and Alderbrook Fantasia (female). Alderbrook La Fuse is connected to a central vertical line, which then branches into two horizontal lines representing his offspring. Alderbrook Fantasia is connected to a central vertical line, which then branches into two horizontal lines representing her offspring. Each of these four offspring lines then branches into two more horizontal lines, representing the fourth generation. The chart is symmetrical and uses standard pedigree symbols: a horizontal line for a male and a vertical line for a female, with diagonal lines connecting them to show mating and offspring.
