

PEDIGREE

German Wirehaired Pointer

CH Ripsnorter Thrill of a Lifetime at Reece JH NAVHDA NA **Prize 1**

The pedigree chart is a horizontal tree structure. It begins with two main horizontal lines on the left, representing the sire and dam. Each of these lines branches into two lines, representing the sire and dam of that parent. This pattern continues, with each of the four resulting lines further branching into two lines, creating a total of eight lines for the third generation. The lines are drawn in a way that they converge and diverge to represent the flow of bloodlines.
