MOSLEY'S INDIANA SPIKE

```
graph LR; A[MOSLEY'S INDIANA SPIKE] --- B[ ]; B --- C[ ]; B --- D[ ]; C --- E[ ]; C --- F[ ]; D --- G[ ]; D --- H[ ]; A --- I[AIRBORNE LACE]; I --- J[ ]; I --- K[ ]; J --- L[ ]; J --- M[ ]; K --- N[ ]; K --- O[ ]
```

The pedigree chart for Airborne Spike is a horizontal tree diagram. It starts with two parents on the left: Mosley's Indiana Spike and Airborne Lace. Mosley's Indiana Spike is the sire, and Airborne Lace is the dam. They have four children: two sons (top two) and two daughters (bottom two). Each of these four children has two children of their own, resulting in a total of eight grandchildren for the original pair. The chart uses a standard pedigree notation where horizontal lines represent individuals and vertical lines with diagonal branches represent mating and offspring.

AIRBORNE LACE
