The pedigree chart for FC Choptalk Talladeega shows a lineage starting from HOF FC Greenwood's Playboy. This sire is mated to two dams, resulting in two litters of four puppies each. Each of these four puppies is then mated to a dam, resulting in a final generation of eight puppies. The chart is presented in a standard pedigree format with horizontal lines for males and vertical lines for females, connected by diagonal lines representing mating. The background of the chart area features a repeating pattern of small dog silhouettes.
