

Irish Setter
Male

A blank template for a dichotomous key. The template features two main branching paths on the left side, each leading to four terminal lines on the right side. The background is filled with a repeating pattern of faint, stylized botanical sketches, including leaves, flowers, and stems. The branching paths are represented by black lines that split and then merge, creating a symmetrical, tree-like structure. The terminal lines are horizontal and parallel to each other, providing space for the user to write the key's steps and the names of the organisms being identified.
