

# PEDIGREE

## BUTTE VIEW'S OKTOBERFEST KEGGER

Wirehaired Pointing Griffon  
Male

The pedigree chart is a three-generation template. On the left, a single horizontal line represents the sire. This line connects to a vertical line that splits into two horizontal lines, representing the two dams. Each dam's line then splits into two more horizontal lines, representing the four offspring of each dam. The chart is designed for a male dog, as indicated by the text in the top right corner. The background features a repeating pattern of the words 'Gundog Central' in a light blue color.
