

Labrador Retriever
Female

A blank template for a dichotomous key. It consists of a central vertical line. From the top of this line, a horizontal line extends to the left. From the top of the central line, a diagonal line goes up and to the right, leading to a horizontal line. From the bottom of the central line, a diagonal line goes down and to the right, leading to a horizontal line. Each of these four horizontal lines then branches into two more horizontal lines, creating a total of eight terminal points for classification. The lines are thin and black, set against a light gray background.
