

Wirehaired Pointing Griffon
Male

A blank template for a dichotomous key. It features a central vertical line that splits into two main horizontal branches. Each of these branches further divides into two sub-branches, creating a tree-like structure. The branches are represented by thin black lines, and the background is a light blue color with a subtle, repeating pattern of small, stylized floral or geometric motifs. The overall layout is symmetrical and designed for easy use in creating a classification key.
