

PEDIGREE

DC TIMBERDOODLE LANCERS ANSWER

German Shorthaired Pointer
Male

The pedigree chart is a horizontal tree structure. It begins with two main horizontal lines on the left, representing the first generation. Each of these lines branches into two lines, representing the second generation. Each of these four lines then branches into two lines, representing the third generation. This structure allows for recording the lineage of a dog across three generations. The chart is set against a background of a repeating pattern of German Shorthaired Pointer heads.
