

PEDIGREE

UK NFC 2006 DANDERW DRUID

English Cocker Spaniel
Male

The pedigree chart is a three-generation template. It features a central vertical line representing the lineage, with horizontal lines branching out to the left and right to represent parents and offspring. The chart is designed for a male English Cocker Spaniel. The background of the chart area is a light blue grid with a faint watermark of a dog's head. The chart is framed by a decorative border with a repeating pattern of small, stylized dog heads.

The chart structure is as follows:

- Generation I (Top): A single line representing the sire (father) on the left and the dam (mother) on the right.
- Generation II (Middle): Two lines representing the sire and dam of the subject, branching from the Generation I lines.
- Generation III (Bottom): Four lines representing the sire and dam of the subject's parents, branching from the Generation II lines.

Each line is intended for a name, and the chart is designed to be filled out with the specific pedigree information for the dog.
