

PEDIGREE

UK NFC 2006 DANDERW DRUID

English Cocker Spaniel
Male

The pedigree chart is a three-generation template. It features a central vertical line representing the lineage, with horizontal lines branching out to the left and right to represent parents and offspring. The chart is designed for the English Cocker Spaniel breed, as indicated by the text in the top right corner. The background of the chart is a light blue color with a repeating pattern of English Cocker Spaniel heads. The chart is framed by a decorative border at the top and bottom, and a vertical border on the left and right sides.

The chart is divided into three main sections, each representing a generation. Each section has a horizontal line on the left for the sire (father) and a horizontal line on the right for the dam (mother). The lines for the offspring are shown as a series of horizontal lines branching out from the central line. The chart is designed to be filled out with the names of the dogs and their relationships.
